**Subject:** Reject HB 3024 As Amended

To Senate Committee Members:

Please do not adopt HB 3024 as amended. This is a special interest bill which has statewide, long term impacts re. replacement dwellings on farmlands. There has NOT been sufficient consideration and study re. tax deferral status, farmland protection laws and history of the OR Supreme Court decision upholding those laws. Small farmers would be particularly and adversely affected should HB 3024 be adopted as amended. I urge you to protect our agricultural lands.

Thank you for your Consideration,

Deborah Noble  
Eugene, OR
