Becomes operative on January 1, 2020 in Clackamas, Jackson, Lane, and Polk Counties. Becomes operative on November 1, 2021 in Columbia, Coos, Curry, Deschutes, Douglas, Josephine, Linn, Marion, Washington, and Yamhill Counties. #### ISSUES DISCUSSED:

##### EFFECT OF AMENDMENT:

-8 Adds provision authorizing a county, prior to November 1, 2023, to allow establishment of a single-family dwelling on a lot or parcel that was part of a tract on January 1, 2019 if no more than one other dwelling exists or has been approved on another lot or parcel that was part of the tract and the lot or parcel qualifies for a dwelling, notwithstanding provision prohibiting dwelling on the tract on that date or any other dwelling on another lot or parcel that is part of the tract. Applies on or after effective date in Clackamas, Jackson, Lane, and Polk counties. Applies on and after November 1, 2021 in Columbia, Coos, Curry, Deschutes, Douglas, Josephine, Linn, Marion, Washington, and Yamhill counties. Repeals provision on January 2, 2024.

-9 Removes condition of dwelling approval that lot or parcel on which dwelling will be sited is part of tract on January 1, 2019, no dwelling exists on tract on that date, and no dwelling exists or has been approved on another lot or parcel that was part of tract.

#### BACKGROUND:

In forest zones, five categories of dwellings are currently allowed: large-tract dwellings, lot-of-record dwellings, forest template dwellings, replacement dwellings, and temporary hardship dwellings.

Forest template dwellings were authorized in 1993 (House Bill 3661) in areas with existing development and parcelization. ORS 215.750 allows for the establishment of a single-family dwelling in forest zones and some mixed farm-forest zones provided that certain conditions are met within a 160-acre square "template" centered on the tract of the proposed dwelling. Required conditions include that: at least three dwellings existed on parcels

within the template on January 1, 1993, and between 3 and 11 parcels existed within the template on January 1, 1993, with the exact number of parcels dependent on the wood fiber production capability of the applicant's land and whether the land is located in eastern or western Oregon.

House Bill 2225 A would define "center of the subject tract," add requirements for an allowable forest template dwelling, and implement the changes for three groupings of counties over three biennia.
