Note: Please use discretion with your personal information in written testimony (i.e., do not add personal information you do not want the public to see). All meeting materials, including your name and any personal information contained in the submitted documents, are posted to the Oregon Legislative Information System (OLIS) and are accessible to all major search engines, including Google, Bing, and Yahoo.

Hello,

I support a statewide ban on two-cycle gas powered leaf blowers by January 1, 2023 because of the environmental and public health hazards of these horrible pieces of lawn care equipment.

I support HB 3350 and for transitioning away from two-cycle gas powered leaf blowers because of the environmental damage, the noise pollution, and the toxic air pollution caused by these tools.

Both in my residential and work environments my family and I are subjected to 2-cycle gas powered leaf blowers on a daily basis by landscaping crews. Urban areas such as my home town, Portland are most impacted by these polluting machines.

Thank you for your time and consideration,
Lisa Hamilton
