

HB 2164-A EITC Inclusion

Co-Chairs Hass and Nathanson

The Earned Income Tax Credit can be taken by low income working families wherever they reside in Oregon.

Historically this credit which originated on the Federal level during the Ford administration.

The refundable credit is vital for lower income Oregonians. The money spent is directly in Oregon communities or potentially invested in savings.

Any small expansion of the credit would serve working lower income Oregonians. Please consider this broad based tax credit as your best avenue to help lower Oregonians.
