Dear Senator Wagner and Rep. Andrea Salinas:

I am opposed to HP 2001 for the following reasons:

- Will increase demolitions of smaller, less expensive houses
- Will eliminate single family neighborhoods statewide
- Will displace vulnerable families by pricing out lower income families, especially renters
- Will take away local control of zoning, planning, and development
- Will take re-zone neighborhoods without public input
- Will not mandate any affordability in the new refill development

Please cast a no vote on this bill.

Sincerely,
Barbara Bowers
