I hope I'm not too late to voice my support for HB 2001. Oregon's current zoning laws are harmful. Legalizing missing-middle makes every dollar of funding for below-market housing go further. Legalizing middle housing makes it far easier for Oregonians to voluntarily cut their carbon emissions. Housing policy is climate policy and it's an expression of our collective sense of justice.

I own a detached single family home and I would welcome multi-family homes in my neighborhood.

Thank you,
