Subject: Testimony opposing HB 2001 A
Date: Tuesday, June 11, 2019 6:04:13 PM

Please vote a "Don't Pass" recommendation re HB 2001 A.

As I have testified previously this is a "one size fits all" solution that will not create affordable housing. It will damage existing neighborhoods without CC&Rs and prevent cities from tailoring code and zoning to fit their unique situations. It circumvents goal1.

This is poorly thought out legislation and should not be passed.
