

Hi,

As someone who uses a bicycle as daily transportation, I am writing to strongly support SB 998, the Idaho Stop bill. As Idaho's experience testifies, it would not increase accident rates. By decriminalizing a common behavior, it will free up traffic enforcement resources and remove a potential source of discriminatory enforcement. And since it has passed the Senate, it can actually be enacted during the current impasse. I hope you bring it to a vote.

Best,
David
