**Sportsmen groups support House Bill 2834-A  
to promote wildlife corridors and protect outdoor recreation opportunities**

Oregon sportsmen groups applaud the strong bipartisan sponsorship of House Bill 2834-A and appreciate the bill's unanimous passage (one excused) on the House Floor.

The bill helps ODFW and ODOT coordinate on a Wildlife Corridor Action Plan that will increase public safety, protect wildlife, and help maintain Oregon's status as a leader in outdoor recreation opportunities.

Wildlife-vehicle collisions cost Oregonian's millions of dollars each year and result in numerous wildlife and human injuries and fatalities. Wildlife crossings have proven to be extremely effective at reducing wildlife-vehicle collisions, and passing HB 2834-A is important to a very broad coalition of sportsmen and outdoor stakeholders.

**We ask for your support of House Bill 2834-A!**
