

My name is Drew Adams, a law abiding, blue collar, Oregonian. I am an avid outdoorsmen and a supporter of our constitutional rights. HB 4005 does nothing but violate our second amendment right, it causes law abiding citizens like myself to no longer be able to protect ourselves and loved ones from random acts of violence. When we have terrorist groups in ANTIFA allowed to riot in our streets committing raw acts of violence, it makes now more than ever the wrong time to take rights away from law abiding civilians. Even though there is never a correct time to take away or tamper with our constitutional rights. HB 4005 is one more step to socialism and history shows that nothing but a state of tyranny comes from that. Vote NO on HB 4005. Leave our rights alone. Go do something to help stop our record high child predator population in this state. Attack the real criminals, not the law abiding citizens that responsibly use our constitutional rights. I hope you choose to support the law abiding citizens of this great state by voting NO on HB 4005 instead of supporting the criminals by making us all victims. Refuse to follow negative leadership, don't be a sheep.
Thank you.
