Jan 30, 2020

Senate Environment and Natural Resources Committee

Dear Committee,

More than 7 out of every 10 Oregonians support legislation that will tackle the climate crisis, and we urgently need your leadership to get us there.

SB 1530 is our best chance for ambitious and meaningful climate action this year. Oregon needs strong climate legislation that:

- * Ensures polluters are held accountable for the damage they're inflicting;
- * Guarantees investments in communities hit hardest by the climate crisis;
- * And sets ambitious targets for reductions in climate pollution across the economy, including the transportation sector.

I hope you will stand with the majority of Oregonians and support the passage of bold climate action in 2020.

Sincerely,

Mrs. Barbara Parlman

Senate Environment and Natural Resources Committee

Dear Committee,

More than 7 out of every 10 Oregonians support legislation that will tackle the climate crisis, and we urgently need your leadership to get us there.

SB 1530 is our best chance for ambitious and meaningful climate action this year. Oregon needs strong climate legislation that:

- * Ensures polluters are held accountable for the damage they're inflicting. We must price ourselves away from our carbon addiction.

- * Guarantees investments in communities hit hardest by the climate crisis;

- * And sets ambitious targets for reductions in climate pollution across the economy, including the transportation sector.

I hope you will stand with the majority of Oregonians and support the passage of bold climate action in 2020.

Senate Environment and Natural Resources Committee

Dear Committee,

More than 7 out of every 10 Oregonians support legislation that will tackle the climate crisis, and we urgently need your leadership to get us there.

If we don't tackle the climate crisis, ALL OTHER ISSUES become moot. There will be no concerns about housing, healthcare, gun control or the national debt because we WON'T BE HERE!
There is NO "Planet B" out there. THIS is the one and only planet we know of that can sustain life. If we don't step up, life will disappear here too.

SB 1530 is our best chance for ambitious and meaningful climate action this year. Oregon needs strong climate legislation that:

More than 7 out of every 10 Oregonians support legislation that will tackle the climate crisis, and we urgently need your leadership to get us there.

SB 1530 is our best chance for ambitious and meaningful climate action this year. Oregon needs strong climate legislation that:

- * Ensures polluters are held accountable for the damage they're inflicting;
- * Guarantees investments in communities hit hardest by the climate crisis;
- * And sets ambitious targets for reductions in climate pollution across the economy, including the transportation sector.

I hope you will stand with the majority of Oregonians and support the passage of bold climate action in 2020.

Sincerely,

Ms. C Reilly

Jan 31, 2020

Senate Environment and Natural Resources Committee

Dear Committee,

More than 7 out of every 10 Oregonians support legislation that will tackle the climate crisis, and we urgently need your leadership to get us there.

SB 1530 is our best chance for ambitious and meaningful climate action this year. Oregon needs strong climate legislation that:

- * Ensures polluters are held accountable for the damage they're inflicting;
- * Guarantees investments in communities hit hardest by the climate crisis;
- * And sets ambitious targets for reductions in climate pollution across the economy, including the transportation sector.

I hope you will stand with the majority of Oregonians and support the passage of bold climate action in 2020.

Sincerely,

Mr. Alain Gauthier

SB 1530 is our best chance for ambitious and meaningful climate action this year. Oregon needs strong climate legislation that:

- * Ensures polluters are held accountable for the damage they're inflicting;
- * Guarantees investments in communities hit hardest by the climate crisis;
- * And sets ambitious targets for reductions in climate pollution across the economy, including the transportation sector.

I hope you will stand with the majority of Oregonians and support the passage of bold climate action in 2020.

Sincerely,

Mr. Thomas Budd

Senate Environment and Natural Resources Committee

Dear Committee,

More than 7 out of every 10 Oregonians support legislation that will tackle the climate crisis, and we urgently need your leadership to get us there.

SB 1530 is our best chance for ambitious and meaningful climate action this year. Oregon needs strong climate legislation that:

- * Ensures polluters are held accountable for the damage they're inflicting;
- * Guarantees investments in communities hit hardest by the climate crisis;
- * And sets ambitious targets for reductions in climate pollution across the economy, including the transportation sector.

I hope you will stand with the majority of Oregonians and support the passage of bold climate action in 2020.

Senate Environment and Natural Resources Committee

Dear Committee,

I'm deeply concerned about the climate emergency and the future my grandchildren are inheriting.

More than 7 out of every 10 Oregonians support legislation that will tackle the climate crisis, and we urgently need your leadership to get us there.

SB 1530 is our best chance for ambitious and meaningful climate action this year. Oregon needs strong climate legislation that:

- * Ensures polluters are held accountable for the damage they're inflicting;
- * Guarantees investments in communities hit hardest by the climate crisis;
- * And sets ambitious targets for reductions in climate pollution across the economy, including the transportation sector.

I hope you will stand with the majority of Oregonians and support the passage of bold climate action in 2020.

Sincerely,

Ms. Susan Sanford
