To our elected officials,

I support strong action, I further support immediate action due to the dire crisis we face. At 70 years old I will not likely experience the worst effects of this crisis...but your great grandchildren most assuredly will. Be strong for them and show up to vote. This is what I expect from you as my representative. That is your job as elected officials. Vote on the climate action bill.

Sincerely, Caroline O'Brien RN, BSN, MSN, WCC
