---

I am expressing my concern about any Cap and Trade legislation, it would be devastating to small business and Oregonians alike. Rural Oregon can't take any more tax hits, the CAT is going to finish some of us and a cap and trade would be a final nail on the coffin of already heavily taxed Oregonians. Our rural communities are in very real danger and I want our family farm to be handed down to my son, not taxed to extinction. Please vote NO on any Cap and Trade legislation.

Thank you.
