

Dear Chair Doherty and Members of the Committee,

As a parent, I oppose this bill because the State of Oregon has no place putting ideas into a child's head about sensitive topics as early as age 10. An anonymous survey makes no attempt to reach a child who is actually struggling with mental health, abuse at home, etc. so I feel this is just a ploy for funding for "educational" programs that a conservative parent like myself would not want their children exposed to anyway. I would fully support effort to get staff members in our school to work with and identify at risk youth, but I do not support surveys that parents and teachers have no control over, or blanket education that will inevitably attempt to normalize sensitive topics to my young children. Please keep our schools a place that is safe from a liberal political agenda.

Regards,
