

# E-cigarette Use in Oregon: Data and Context

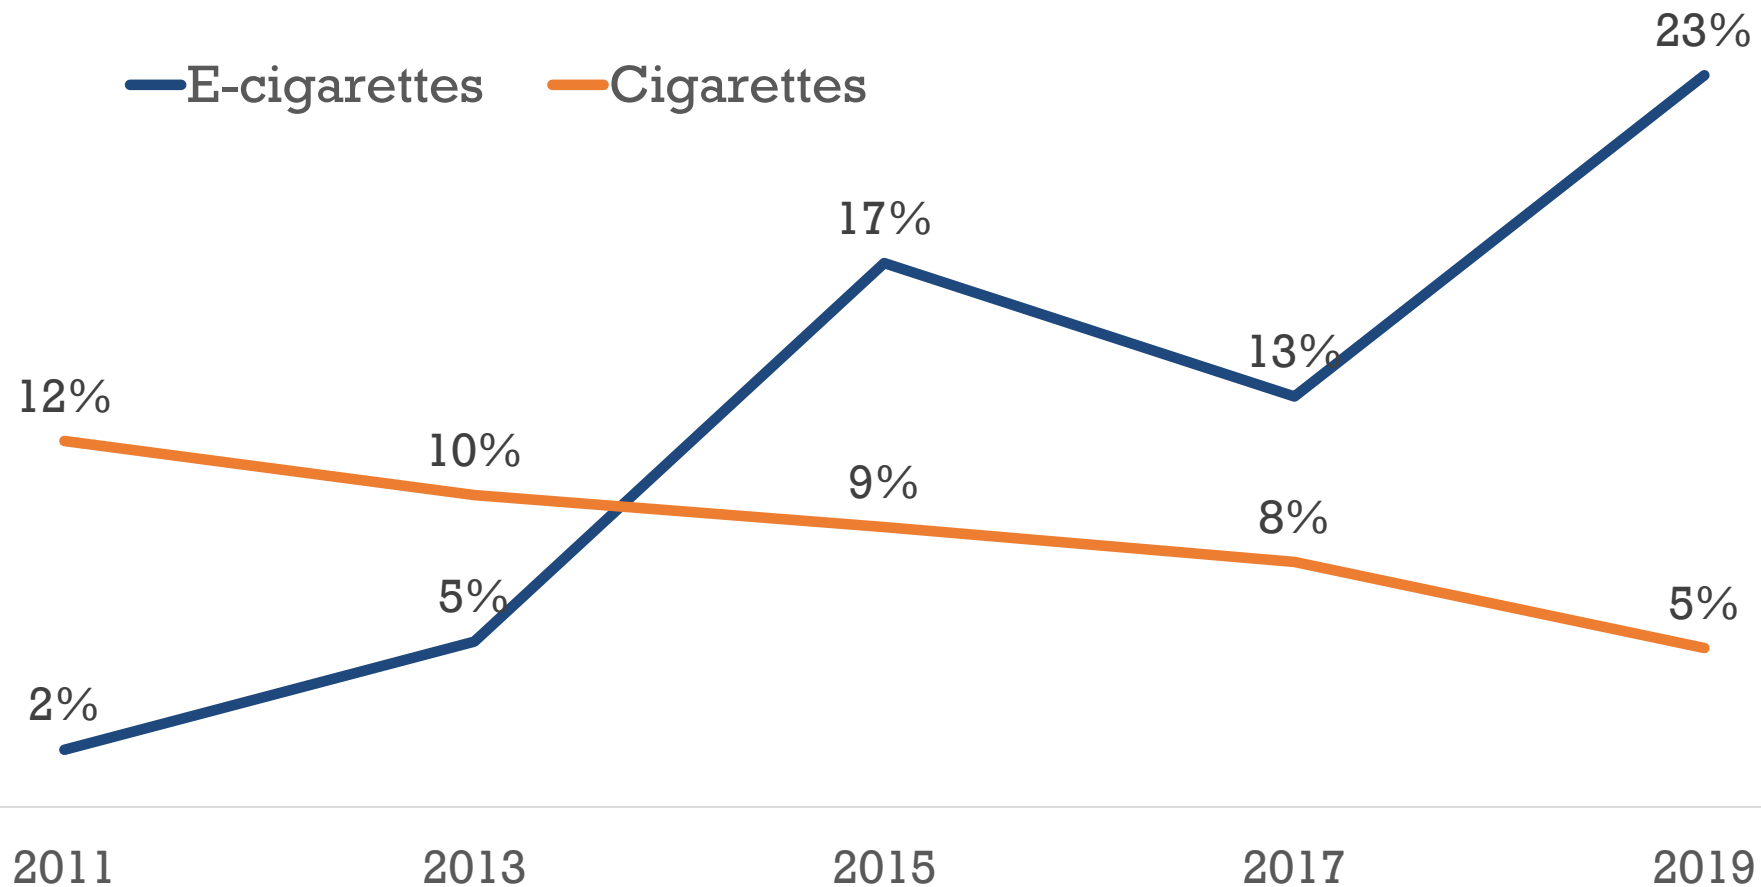

February 4, 2020

**Dean Sidelinger, MD MEd**

Health Officer and State Epidemiologist

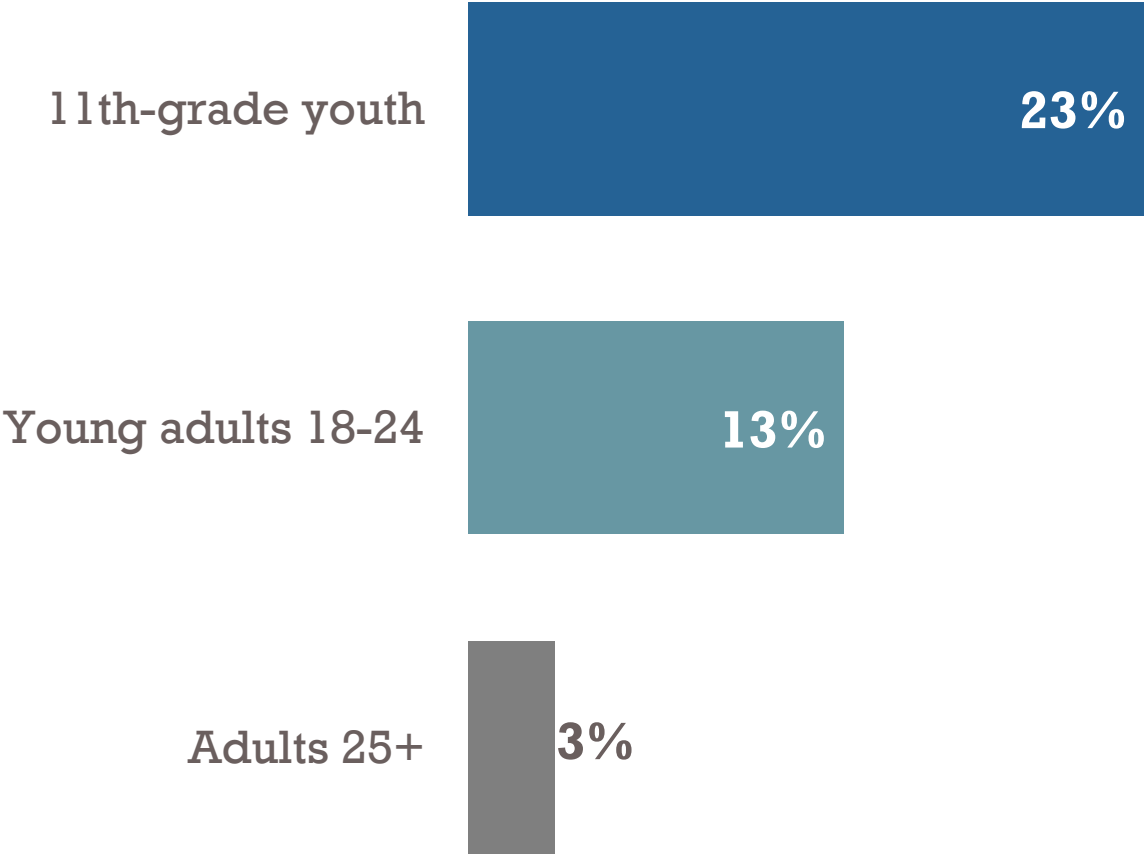

Oregon Health Authority – Public Health Division

# Cigarette and e-cigarette use, among 11<sup>th</sup>-grade youth

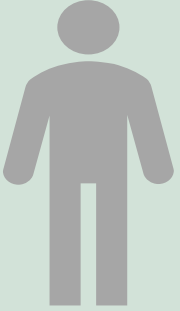

Use of cigarettes in Oregon has decreased among 11th-graders. However, use of e-cigarettes increased by nearly 80% between 2017 and 2019.

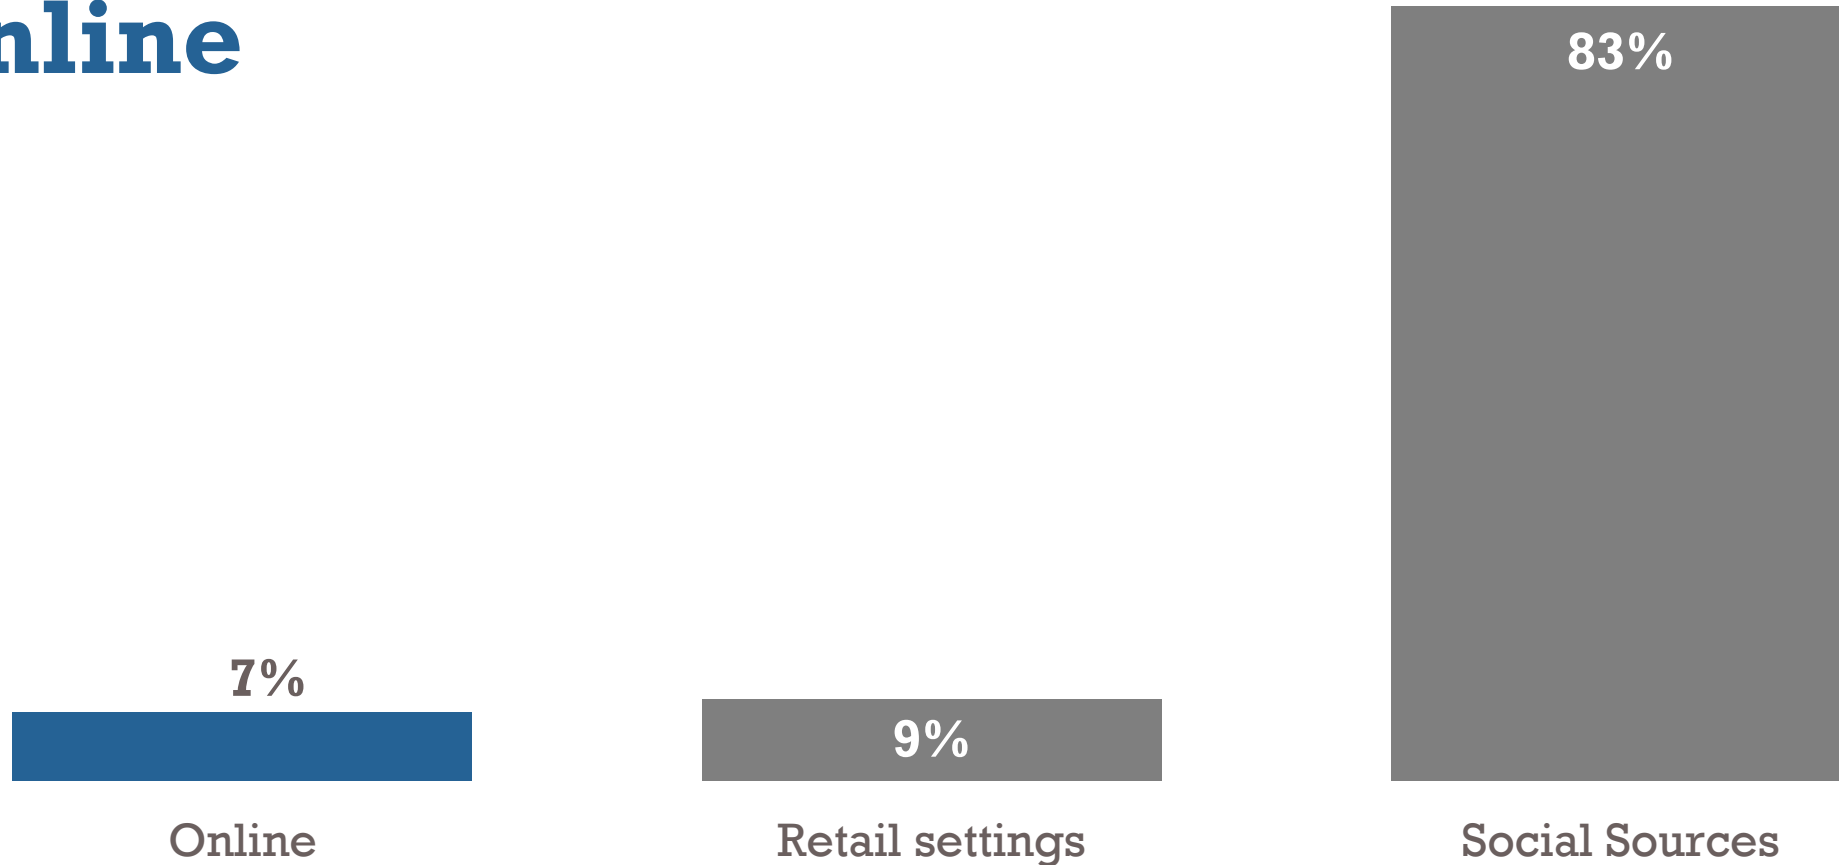

# Nicotine e-cigarette use, among **youth**, **young adults** and **adults 25 and older**

Approximately half of Oregon high school students who currently use e-cigarettes report that they never smoked conventional cigarettes, not even once.

The majority of youth get their e-cigarettes from social sources such as friends or family, however, 7% of **youth get e-cigarettes online**
