As a Federal employee I have taken an oath of defense upon the Constitution which acknowledges our natural rights granted from a power greater than man. An attempt of State legislation to negate the constitution and give power to rapists, murders & home invaders is extremely disturbing. The State must not attempt to undermine the Constitution. If Oregon wanted to legalize slavery, if both parties agreed it could not because the 13th amendment of the Constitution is > than State legislation. Yamhill County is chock, full of well armed, private household's that do not want Salem attempting to put us at risk thru illegal legislation and forcing us to adopt sanctuary County rules to protect our friends and families from Unconstitutional attempts to make us criminals and protect rapists and murders and miscreants.

Regards,

Mr. Chambers
Yamhill County
