Jan 31, 2020

Senate Environment and Natural Resources Committee

Dear Committee,

More than 7 out of every 10 Oregonians support legislation that will tackle the climate crisis, and we urgently need your leadership to get us there.

SB 1530 is our best chance for ambitious and meaningful climate action this year. Oregon needs strong climate legislation that:

- * Ensures polluters are held accountable for the damage they're inflicting;
- * Guarantees investments in communities hit hardest by the climate crisis;
- * And sets ambitious targets for reductions in climate pollution across the economy, including the transportation sector.

I hope you will stand with the majority of Oregonians and support the passage of bold climate action in 2020.

Sincerely,

Ms. Susanna Askins
