I urge you to take a stand to **stop Cap-and-Trade** for hardworking Oregon families. Just factoring in the impact of cap and trade on our farm's propane use, not taking other operating fuels into consideration, we would be **paying an additional \$42,560 per year!!!** We use propane to heat our barns, and it is by far the largest expense on our operation (we raise broiler/fryer chickens... so eat more chicken!), and it is difficult enough as it is to manage through the winter. This bill would **HUGELY** impact our livelihood.

Cap-and-Trade is a costly system that would raise taxes and costs on businesses and families alike. From higher costs for fuel, electricity, food and household goods, to the loss of living wage jobs and businesses leaving the state, it's a system Oregon simply can't afford.

It has also been well documented this bill does absolutely nothing to affect climate change. The agriculture industry is actually one of the lowest contributors of carbon, contrary to what is reported on social media!!!

Please continue to stand with hardworking Oregon families by saying 'No' to Cap-and-Trade.

I oppose Cap and Trade! Let us vote!!

Thank you for your consideration,
Megan Cozart
