

Feb. 4, 2020

As a military veteran I feel that Concord College is a great option for getting trained and educated because the accelerated programs get us career ready faster. I can also see this as a benefit to Veteran Affairs because the less time we are spending in the classroom, the less time benefits need to be paid out for the G.I. Bill. The instructors at Concord are very knowledgeable and go above and beyond to help students succeed. The small class sizes give us a lot more opportunity to get one on one time, than if we were in a traditional college class.
