

The laws that are being proposed do not represent my beliefs or views. These laws go against my constitutional rights, as does any gun law. It has already been deemed by the supreme court yet the people that have proposed this law want to go against that ruling? That is a betrayal to their oath to the constitution and the people of Oregon. Here is a snippet of that ruling "The requirement that any lawful firearm in the home be disassembled or bound by a trigger lock makes it impossible for citizens to use arms for the core lawful purpose of self-defense and is hence unconstitutional," Justice Antonin Scalia wrote in the opinion of the court." I thought it was crystal clear when it said "shall not be infringed" just in case you forgot which constitutional right I am referring to it's the 2nd amendment that is listed in the bill of rights in the constitution and it reads "A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed." This amendment was so important that it made the 2nd on the list of the bill of rights. It is meant to protect the 1st amendment and all the others, as well as protect the people from a tyrannical government. If we do not have our 2nd amendment how can we be sure that the American government won't abuse its people and that it won't take more rights away from us?

Oregon is facing very real crises. We expect the people we elect to work to address them and not squander time and money attempting to exterminate the rights of gun owners. The anti-gun bills introduced are a disgrace. Let us stop attacking the rights of the law abiding and work on real problems.
