

Dear Chair Sanchez & Committee Members:

I urge you to REJECT this bad piece of legislation! We're constantly reminded not to condemn all Muslims over the actions of a few. This bill condemns all gun owners over the actions of a few. Using the logic in HB 4005, if someone steals my unlocked car and then is involved in an injury/accident I'm accountable. I doubt that such a claim would be upheld by any reasonable judge.

I'm OK with universal background checks but HB 4005 and other anti-gun owner bills that penalize law-abiding gun owners are bad ideas – please do not pass this bill!

Respectfully,
