

This bill is with out merit. It does nothing to criminals. It only punishes gun owners and makes them liable for things they have not done. Trying to destroy our heritage of self defense and leaving young people defenseless. Making the Health Athority some how now locksmiths. Using a horrible evil that was committed on two people in the mall while never mentioning the gun owner who saved who knows how many. Stop trying to make gun owners criminals we only want to defend ourselves and others.
