

Please don't require that all firearms be locked up. Personal self defense firearms are useless when they are locked up. If you require this i have 2 choices, 1) become a felon for not obeying your ridiculous law and keep them accessible to protect me and my wife, or 2) lock them up, obey the law, because I know, the criminals wont obey your laws. But you will feel better at night because you locked up guns, law abiding citizens guns. But what about the criminals?
