

Dear Oregon Legislators,

The fact you are even considering the current actions paves the way towards complete socialism. As many in your ranks fail to see it that way is but one step in your journey to communism. Why are you focusing on the law abiding Oregonians to reduce the illegal actions of criminals? Who do you think you are fooling except for yourselves and whichever ilk you are accepting money from? The fact so many good Oregonians oppose you should be enough for most good lawmakers. Yet you continue. May God have mercy on your souls...
