

Instead of going after peaceful and law abiding citizen, why don't you do something about the gangs and lawless criminals in your big cities- this bill has absolutely no effect on them. That brings into question your motivation to penalize us, the peaceful, tax paying citizen (as with your worthless cap&trade bill), and giving the bad guys a free pass. You won't be a super-majority forever - and these decisive bills are going to speed your demise. The voters (particularly independents) are tiring of your antics, and all of Bloomberg's money, (or his red-shirt bused in supporters won't save you. Illegal immigrants+drugs =gangs=gun violence. Peaceful voters + HB4005 = more animosity = the Democratic demise. Guess you're not paying attention the bad pr the party is getting in DC, and across the rest of the country. Herb Goblirsch
