Subject: SB1530
Date: Friday, February 7, 2020 12:39:38 AM

I urgently request that this bill be removed from any and all agendas in this current session. It is, without a doubt, the most insidious piece of legislation ever offered. I also demand that it be placed on the next appropriate statewide ballot so that a vote will determine its fate.

It is simply beyond me how anything this bad can be heard in a public forum. The Democrat party in this state must be embarrassed – or should be.

Regards,
