Subject: I support climate change legislation
Date: Friday, February 7, 2020 9:42:07 PM

My name is Carol Adams And I live in Hood River, Oregon. I am very concerned about climate change in Oregon and strongly support cap and trade legislation. I am an RN and work at Providence and am also a restaurant owner. We experienced financial loss at our business due to the fire in the Columbia Gorge. The impacts of climate change are serious and we need to pass legislation without walkouts.

Thank you,

Carol Adams
