You all know Cap & Trade is nothing more than a bill, to line the pockets of Kate Brown and the rest of the dishonest people at the Capitol. The people that are pushing this issue instead of letting the people vote on this. Know its nothing more than a slush fund.

I'm a truck driver and I drive all over Oregon. I live in North Bend, Oregon. Born and raised here. I graduated in 98 and moved to Salem and surrounding area for 12 years. And then back to North Bend. Portland use to be "THE ROSE CITY" It use to be beautiful. Now it's nothing more than a 3rd world country. And if this bill passes and our lively hood of rural Oregon will come to an end. And then you want us to move to the "Big City" and get green jobs that don't exist. You people can't even clean up your own area. Let alone provide work and housing for the homeless you have.

So imagine this... the amount of homeless, drug users, people taking shits on our streets, and so on will be so much worse. And yet we'll all be better off because we live in the "Big City"...

Pull your HEADS OUT OF YOUR ASSES and do the right thing here and don't pass this bill. Its nothing more than BULLSHIT.

Thank you for your time.
Oregon born and raised.
Sincerely Darrel A Karow
