Subject: SB Bill 1530
Date: Saturday, February 8, 2020 10:50:16 AM

Oregon representatives,

I am opposed to the senate bill 1530. I am a rancher in Central Oregon, and this legislation is poorly crafted. It would raise the costs for low income Oregonians without impacting global emissions in any real way. A complicated issue such as this needs a lengthy discussion and well thought out proposal, not this bill pushed through in the short session

Thank you,
Jody Holmes
