

I am strongly opposed to SB 1530. This Bill is truly only about the money It will bring to you and take away from the working Oregonians.

They were Many people that brought to the table suggest for you to fix the carbon emissions and helping the environment.

Like planting trees and thinning the forest.

Try taking a few hours walking through our forest. You will see if there's Plenty to clean up. And plenty of space to add more trees.

Please say no to SB 1530

Thank you for your time

Jolene Koch
