I am a 77 year old female wife, mother, grandmother, and great grandmother. I have voted mostly Democrat all my life. I feel that any bill proposed that will raise taxes should be put for a vote by the people. I am also unhappy about the proposed legislation called cap and trade. It will be so difficult for the working people and small towns.

I support the environment and want a healthy environment for our future generations, but this is not the way to do it. Please do not pass this bill just to show your power, but think of the people
