Dear Oregon State Senate Committee On Environment and Natural Resources,

So, is it stupidity or just corruption? Because these Mega-dairies have worked out SO WELL in the past now haven't they? STOP ALLOWING THE GREEDY PHUCKING RICH TO POISON US FOR THEIR PROFITS.

WHO has been paying to clean up the mess left by Lost Valley Farm? Is THAT cleanup complete? WHY do you think it will be different next time?

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Kelly McConnell

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Rebecca Taylor

Dear Oregon State Senate Committee On Environment and Natural Resources,

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Laura Hanks

Dear Committee Members,

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. To pass this bill would be a disservice to the long-term needs of impacted communities, our independent family farmers, and Oregon's air and water to address these problems in a truly substantive and sustainable way.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks.

What we really need is a moratorium on new and expanding mega-dairies. A thoughtful analysis of the reforms needed to protect Oregon's environment, communities, and farms requires a complete time-out from the expansion of the mega-dairy industry to achieve the meaningful reforms Oregon needs.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. To pass this bill would be a disservice to the long-term needs of impacted communities, our independent family farmers, and Oregon's air and water to address these problems in a truly substantive and sustainable way.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks.

What we really need is a moratorium on new and expanding mega-dairies. A thoughtful analysis of the reforms needed to protect Oregon's environment, communities, and farms requires a complete time-out from the expansion of the mega-dairy industry to achieve the meaningful reforms Oregon needs.

Dear Committee Members,

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. Dear Oregon State Senate Committee On Environment and Natural Resources,

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Subject: Oppose SB 1513!
Date: Friday, February 7, 2020 12:28:14 PM

Dear Oregon State Senate Committee On Environment and Natural Resources,

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
John Altshuler

This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
dorinda kelley

Dear Oregon State Senate Committee On Environment and Natural Resources,

With the dairy industry shrinking, compounded by the ground, water, and air pollution it makes no sense to add factory dairy "farms" to our home. I can understand working to support small, family dairies, one way of which would be to not enable mega-dairies that poses threats to their existence.

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Marion Hadden

Dear Committee Members,

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. To pass this bill would be a disservice to the long-term needs of impacted communities, our independent family farmers, and Oregon's air and water to address these problems in a truly substantive and sustainable way.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks.

What we really need is a moratorium on new and expanding mega-dairies. A thoughtful analysis of the reforms needed to protect Oregon's environment, communities, and farms requires a complete time-out from the expansion of the mega-dairy industry to achieve the meaningful reforms Oregon needs.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. To pass this bill would be a disservice to the long-term needs of impacted communities, our independent family farmers, and Oregon's air and water to address these problems in a truly substantive and sustainable way.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks.

What we really need is a moratorium on new and expanding mega-dairies. A thoughtful analysis of the reforms needed to protect Oregon's environment, communities, and farms requires a complete time-out from the expansion of the mega-dairy industry to achieve the meaningful reforms Oregon needs.

Dear Committee Members,

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

Subject: Oppose SB 1513, we need a mega-dairy moratorium instead!
Date: Tuesday, February 4, 2020 2:47:45 PM

Dear Committee Members,

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

Marius Brisán
