

February 11, 2020

My name is Victoria Meier, and I'm an educator who lives in West Linn, Oregon.

I am writing in support of HB 4105.

There must be no more expansion of fossil fuels on public lands. Furthermore, Oregon must have stronger laws to force better monitoring of the oil trains that pass through our lands. Even better, we should keep them out, away from our children's schools and our homes. They are a danger to us.

Thank you, Rep. Power and Sen. Golden, for introducing this bill.

yours,

Victoria Meier
