

Note: Please use discretion with your personal information in written testimony (i.e., do not add personal information you do not want the public to see). All meeting materials, including your name and any personal information contained in the submitted documents, are posted to the Oregon Legislative Information System (OLIS) and are accessible to all major search engines, including Google, Bing, and Yahoo.

Dave White

Climate Change Truth Inc.

We follow the data NOT the false agenda of the IPCC. See attached document.

It is dumb to work on emissions of carbon dioxide. Even if we cut our emissions of carbon dioxide by 45% around 2030 and the atmospheric CO₂ residence time is only 20 years then atmospheric carbon dioxide never lowers. In truth the minimum residence time for atmospheric carbon dioxide is over 200 years. Which means anything we do with emissions takes more than 200 years to take effect. Plant a native tree and it starts consuming carbon dioxide in 3 to 6 months. Working on photosynthesis, atmospheric carbon dioxide lowers to a value of 330 ppm by 2031.

The IPCC (Intergovernmental Panel on Climate Change) and UN (United Nations) lie to you. I performed expert review of IPCC SR 1.5 Chapter two "Mitigation" garbage. I sent it to 500 scientists and they read it. Then I sent it to the other 200 scientists at the IPCC and 1 week later the scientist who wrote their crappy simulations was fired.
