---

I oppose the Cap and Trade bill SB1530. This is VERY poor legislation so full of flaws our government should be ashamed of even considering it. Our state carbon emissions are not an issue. If it's a good bill, why are companies like Nike exempt? (Lining Kate's pockets is not a good reason). Selling credits to large corporations? The whole thing is a recipe for disaster. I'm not opposed to moving. If junk like this keeps going, I will take my tax revenue to another state.
