Please accept this as my statement to above mentioned bill

It appears this bill -

- *Brought up in short session
- *Told the public “ is so complex normal people can’t understand it “
- *Trying to pass another measure which conceals all language, discussion and finding
- *Needs time in normal session to measure impact in rural areas of Oregon
- *Needs to be put to the vote of the people in the state of Oregon - not just the elected government

Again, there is more to Oregon than Portland and our voices deserve to be heard.

Sincerely
Nancy Ann Whitley
