

Members of the Committee,

This document is a collection of messages that Oregon State alumni and supporters from across Oregon have sent to dozens of your colleagues. They include stories describing how OSU has changed lives, and why your support is needed to make urgently needed capital improvements at OSU's main campus as well as OSU-Cascades in Bend.

OSU alumni and programs are having a transformative impact in communities across our state. As Oregon's land-grant university, OSU's mission is to make education accessible and knowledge available to all Oregonians. The capital construction requests before you this session will enhance OSU's ability to produce career-ready graduates ready to make a positive impact.

These capital projects have unparalleled university matches, including \$5M raised by students for the Student Success Center in Bend and \$35M for the Corvallis Arts and Education Complex, including a \$25M lead gift. State investment is needed to leverage these unique donor and student contributions into facilities that will benefit our state for generations to come.

Support for Oregon State is bi-partisan and statewide. We ask that you join OSU alumni and supporters across Oregon and make needed investments that will give students, both young people and adult learners, access to a world-class education.

An investment in Oregon State is an investment in the state of Oregon.

With best regards,

The Beaver Caucus

Friday, December 20, 2019

The Honorable Senator Tim Knopp  
900 Court St. NE S-309  
Salem, OR 97301

Subject: Support OSU-Cascades Student Success Center

Dear Senator Knopp:

I urge you to support the OSU-Cascades capitol project for a student success center. OSU-C has proven to be a force for good in the region and an incredible resource for our young people. I want the campus to be a thriving option for my own children when they are old enough for college. Thanks.

Sincerely,

Michael Giamellaro  
2324 NW Lemhi Pass Dr  
Bend, OR 97703

Friday, December 20, 2019

The Honorable Representative Cheri Helt

The Honorable Senator Betsy Johnson  
900 Court St. NE, S-209

Salem, OR 97301

Subject: Support OSU Capital Construction Projects

Dear Senator Johnson:

During the early to mid 70's I was a student at Oregon State University. I spent a lot of time in Cordley Hall and the building was in good condition at that time. Unfortunately during the past 43 years the building has aged a lot and needs a thorough upgrade and is an example of the type of upgrades are necessary. I also spent a lot of time in Agriculture Hall and Education Hall and fortunately they have been upgraded to serve the current student population. In addition, a lot of work is needed on campus because the student population is about double what it was when I was a student there. New buildings are required on the Corvallis and Bend campuses to support our students today.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and member of the Beaver Caucus, an independent group of Oregon State University (OSU) alumni, friends and community members dedicated to improving Oregon's system of higher education, I hope you will support funding for the following OSU capital construction projects:

- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.
- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Leonard Aplet  
32000 SW Keys Rd  
Scappoose, OR 97056

The Honorable Senator James Manning  
900 Court Street NE S-205  
Salem, OR 97301

Subject: Support for OSU Capital Construction Projects

Dear Senator Manning:

I ask that you support the two capital construction projects for which Oregon State University will be requesting funds during the upcoming legislative session.

I am a 1973 OSU grad - the first in my family to attend college. Fortunately for me, the cost of higher education at that time was affordable because of state support. I believe public education is the great equalizer in providing opportunities for Oregonians to improve their lives. My education at OSU was certainly key to my successful and fulfilling careers in both the military and private industry. I hope you will give students the chance I had by funding both K-12 and higher education needs.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. Sunday, February 2, 2020

The Honorable Senator Rob Wagner  
900 Court St. NE, S-213  
Salem, OR 97301

Subject: Support OSU Capital Construction Projects

Dear Senator Wagner:

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and member of the Beaver Caucus, an independent group of Oregon State University (OSU) alumni, friends and community members dedicated to improving Oregon's system of higher education, I hope you will support funding for the following OSU capital construction projects:

- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.
- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Rebecca McAuliffe  
19457 Olson Ave  
Lake Oswego, OR 97034

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Steve Garrett  
1151 Three Wood Dr  
Bandon, OR 97411

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

Hope the day is going well.

I am simply writing to ask you to consider approving funds for the Oregon State Cascade Center. As you know, OSU Cascade offers higher education opportunities to the region.

Within my family, approximately half of us holds a College Degree or higher. The other half holds a high school education. I have witnessed the difference a college degree makes in a family. Those that have one in my family have had more opportunities for advancement in our careers and social circles. Those that do not have a degree are being left behind. As a result, my wife and I have agreed to do everything we can to value education in our family and community, which is why I am asking you to offer support for higher education in a region of the state that lacks it.

Thank you,  
William Sun

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

I am a third generation Beaver and a retired high school teacher. My career was very satisfying and rewarding. Oregon State prepared me well for my career. With the current high cost of a college education, it is so important to have a four-year university close enough to allow a student to live at home or continue in their present job while earning a degree. The expansion of the OSU Cascades campus with a Student Success Center is so important that the students voted to 'tax' themselves to provide matching funds to make this happen. That is impressive!

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

Tuesday, February 4, 2020

The Honorable Senator Jeff Golden  
900 Court St. NE, S-421  
Salem, OR 97301

Subject: Support OSU Capital Construction Projects

Dear Senator Golden:

I am a third generation Beaver and and a retired high school teacher. My career was very satisfying and rewarding. Oregon State prepared me well for my career. With the current high cost of a college education, it is so important to have a four-year university close enough to allow a student to live at home or continue in their present job while earning a degree. The expansion of the OSU Cascades campus with a Student Success Center is so important that the students voted to 'tax' themselves to provide matching funds to make this happen. That is impressive!

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Carol Holst

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

The contributions Oregon State University makes to the state of Oregon are immeasurable. As an alumnus of Oregon State University (Bachelor of Science, Atmospheric Sciences, 1987), and later a Masters and PhD from other non-Oregon PAC-12 universities, I cannot overstate the excellent education and career preparation provided by Oregon State University. Everywhere in this great state you see evidence of OSU's outstanding contributions to science and engineering, as well as extensive extension service work. OSU is easily the state's most recognizable public university as measured by return on education and research investment. There is not a piece of this state that OSU does not touch. Everywhere you look, you find Oregon State University -- whether it's the Pacific ocean, our rugged beaches, diverse wildlife, thriving agriculture, massive forests, and even the atmosphere and space overhead, right down to the famous Oregon microbrew or fine wine that you may enjoy this evening. So much of our daily lives in Oregon are rooted in the research, engineering, conservation, and

education originating at Oregon State University. I urge you to invest in the future of Oregon and please support this outstanding university so it can continue to grow and expand into one of the nation's best public research, engineering, and teaching universities.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

The Honorable Senator Lew Frederick  
900 Court St. NE, S-419  
Salem, OR 97301

Subject: Support OSU Capital Construction Projects

Dear Senator Frederick:

Educational opportunities for all Oregonians is an essential right! Support to the Bend Campus and higher education provide opportunities for many in our communities. It's imperative that you lend your support and provide an avenue of education and empowerment, that has the potential to support the state, region and world!

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Charlene McGee  
6836 NE 27th Ave  
Portland, OR 97211

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

OSU-Cascades is a tremendous resource for our state. The campus is sustainably built and tailored to fit the needs of the unique population it serves. It brings the opportunity for economic mobility to a previously underserved part of our state. And it benefits all of us who proudly call Oregon our home. The same can be said for the Arts & Education Complex on the Corvallis campus -- an asset for the entire state as school children and others from the surrounding communities will be enriched by its offerings.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

Without additional education beyond High school, students cannot become a productive member of our state, in rural areas this is critical. Lack of good wages and affordable housing in this central area of Oregon preclude many of the resident the opportunities that exist in large metropolitan areas, unless we continue to support verbally and monetarily to this end, we deprive all of the benefits that this proposal provides to all of Oregon as GRADUATES for the future, well trained and looking forward to a promising future to return to the next

generation as I have done and will continue to do. It is repayment for all the assistance and friendships I have been rewarded with.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

Subject: Please Support OSU Capital Construction Projects

Dear Governor Brown:

My name is Caprial and I am an Honors College junior double majoring in Economics and History. I grew up in Oak Grove and have been a constituent of the same district my whole life. As a student in the College of Liberal Arts, I see every day how other colleges receive new capital and resources, while we are given repurposed and out-of-date spaces.

The prospect of the Arts & Education Complex is very exciting to myself and my peers, many of whom are part of the Music program either academically or through extracurriculars. Oregon State severely lacks performance and practice space for all forms of art, and the Arts & Education Complex would make the university a flagship institution for the state in yet another discipline.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Caprial Farrington

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

Hello, my name is Dylan Young. I'm a current fourth year student at Oregon State University Corvallis campus. When I heard about the capital projects that Oregon State was proposing to the legislature I was elated with them. I would not have been confident or open enough to apply or pursue opportunities at Oregon State without the arts that I participated in high school. The arts provides an important and necessary outlet for students to grow and blossom into their own creative success. Having seen and used the current locations for the arts their conditions are sub-par at best. The Arts and Education Complex would provide a much needed boost to the current facilities used for this important aspect of our education.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They

will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Dylan Young

The Honorable Governor Kate Brown

160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

My name is Maja Engler and I'm a third-year student at Oregon State University in Corvallis studying biochemistry and molecular biology. I strongly believe that this country needs more women in science represented in politics, and I am on a mission to make that happen.

Therefore, I feel passionately about the OSU Capital Construction projects. Although I am not majoring in music, music means a lot to me personally and I know that our Arts and Education Complex is in dire need of a remodeling. Students cannot practice because they can hear other groups through the walls, and many of those who wish to major in the arts choose not to come to OSU because it seems as though we do not value music and arts - I want that to change.

In addition, we have a wonderful Student Success Center here on the Corvallis campus. It provides a safe and comfortable space for me and my peers to study, host club meetings, and attend career-prep events. Unfortunately, the Cascades campus does not have any type of center such as this, and I know that my peers there would benefit immensely from one. A space such as that can change the directory of your college career, and thus could change your entire life.

During the 2020 legislative session, you and your colleagues will be making critical decisions about these public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects - Student Success Center!

Dear Governor Brown:

Hello! I am a senior at Oregon State University studying geography and geospatial science. However, I also am involved in our OSU Environmental Council and in student clubs. These are dependent on our student success centers! As a university student, our student success centers help us remember how to be people too and not just students. They support our student government, our clubs, our mental health, our financial situations (like our ability to buy food!) We have so many opportunities to get involved here at OSU Corvallis and can't even comprehend how hard it must be at OSU Cascades where they only have classrooms and a dorm. As the urbanized Willamette Valley, we cannot leave our rural counterparts behind when we are working so hard to spread higher education opportunities across the state.

I also was a part of our music department here at OSU Corvallis for several years. Our "music building" is actually the oldest building on campus and is basically falling apart. The music department is just crammed in this building where there are moth infestations, windows that don't shut, and no efficient heating or cooling system. Supporting the Arts and Education Complex will also support music at OSU. Supporting the Arts and Education Complex will support something that is an outlet for so many students and will show that we want to support education in all forms, not just scientists in labs with chemicals. This complex will support the artistic side of OSU.

Overall, supporting these projects will support us as human beings, not just as students. We are always stressed and overworked, trying to get everything done, from classwork to trying to be adults and make dinner. These projects will help us destress and express ourselves and make it through the day. Please consider supporting these projects and supporting the future of our society.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a student and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

Hello,

My name is Diego Rodriguez, and I am a Biochemistry and Psychology double major at Oregon State University. I am writing you this evening to advocate for the support for the arts and education complex at Oregon State University main campus in Corvallis and the Student Success center on the OSU cascades complex in Bend. As a student in the Honors College, the College of Liberal Arts, and the College of Science I have always enjoyed a interdisciplinary and multifaceted approach to learning. Therefore, I fully believe that the following capital projects will enrich and support the education of my peers. The Arts and Education Complex at OSU will provide the means for many students to continue their musical and artistic studies in addition to their main focus in a plethora of fields, and perhaps will allow for a greater diversity of ideas and thoughts at the OSU campus as we increase the opportunities for arts, while we simultaneously continue on as the top public research institution in the state of Oregon.

Further, as a student who is involved in a number of volunteer based organizations at the main campus of Oregon State University, I know the student success center will allow for the formation and continued development of many student-led organizations that will benefit not only the students but the surrounding community. I hope you will support these projects and support the education of OSU students.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Diego Rodriguez

The Honorable Senator Jeff Golden  
900 Court St. NE, S-421  
Salem, OR 97301

Subject: Support OSU Capital Construction Projects

Dear Senator Golden:

Hello,

My name is Diego Rodriguez, and I am a Biochemistry and Psychology double major at Oregon State University. I am writing you this evening to advocate for the support for the arts and education complex at Oregon State University main campus in Corvallis and the Student Success center on the OSU cascades complex in Bend. As a student in the Honors College, the College of Liberal Arts, and the College of Science I have always enjoyed a interdisciplinary and multifaceted approach to learning. Therefore, I fully believe that the following capital projects will enrich and support the education of my peers. The Arts and Education Complex at OSU will provide the means for many students to continue their musical and artistic studies in addition to their main focus in a plethora of fields, and perhaps will allow for a greater diversity of ideas and thoughts at the OSU campus as we increase the opportunities for arts, while we simultaneously continue on as the top public research institution in the state of Oregon.

Further, as a student who is involved in a number of volunteer based organizations at the main campus of Oregon State University, I know the student success center will allow for the formation and continued development of many student-led organizations that will benefit not only the students but the surrounding community. I hope you will support these projects and support the education of OSU students.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Diego Rodriguez

Salem, OR 97301-4047

Subject: Important: Support OSU Capital Construction Projects

Dear Governor Brown:

Hello there! My name is Cami Love, I am a third year student at OSU studying political science and communications. In addition to my studies, I love to dance and this has been really important to me for my entire life. However, at OSU there are not adequate spaces for me to be able to perform which is why I am in such support of the Arts and Education Complex. This would be an incredible facility where plenty of students who love performing just like me would be able to have a creative outlet. I wish I had been able to perform during college, but OSU does not have the facility to do so. The buildings I currently take dance classes in are extremely old and are falling apart and this is not fair to performing arts students. I hope you take this into consideration, I am so passionate about this project and hope you can see why.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

My name is Allan Aguirre-Burk and I am currently a third year student studying Molecular Biology and Biochemistry at Oregon State University. I have long appreciated music and arts of all forms, despite personal financial constraints that prevented me from participating in them. State support for the planned new Arts and Education Complex at OSU's Corvallis campus has then become an interest of mine recently. With a total cost of \$70 million and \$35 million of that matched by donor funds, I believe this a worthy investment of the state to seriously consider. As a community, OSU constituents and affiliates have come together to gather this money to

show our own commitment for the project, and this should be recognized as it is half of what we expect the project to cost. The added attraction to the campus will show OSU's commitment to the arts and thus potentially increase enrollment, having an effect on Oregon's local economy. I ask you to consider this when voting on the matter and thank you for your time.

Subject: Please Support OSU Cascades' Student Success Center

Dear Governor Brown:

Hello,

My name is Katie Lewis and I am a student at Oregon State University Corvallis. I am a public health major in the last year of my Bachelor's degree. During my time as a student at OSU, I took temporary leave for a year due to mental ill-health, financial challenges, and struggles in my coursework. My story is personal, but not unique-- many students struggle with similar issues and receive help from support networks such as their advisors and the Academic Support Center at OSU Corvallis. The students of OSU-Cascades are deserving of a Student Success Center which will promote student wellbeing and community building. Thank you for considering funding the Student Success Center this session.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

Hello,

My name is Katie Lewis and I am a student at Oregon State University Corvallis. I am a public health major in the last year of my Bachelor's degree. During my time as a student at OSU, I took temporary leave for a year

due to mental ill-health, financial challenges, and struggles in my coursework. My story is personal, but not unique-- many students struggle with similar issues and receive help from support networks such as their advisors and the Academic Support Center at OSU Corvallis. The students of OSU-Cascades are deserving of a Student Success Center which will promote student wellbeing and community building. Thank you for considering funding the Student Success Center this session.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Katie Lewis  
13245 SW Burnham Ct

Salem, OR 97301-4047

Subject: Please Support OSU's Student Success Center

Dear Governor Brown:

Hello,

I am a current student here at OSU Corvallis and am reaching out in support of the OSU Capitol Construction Projects. Though I know they all have their own importance, I want to personally write to you around the Student Success Center. Though I am a student on the Corvallis campus, I know first hand the benefits a building like the Student Success Center can provide for other students. My first year here in college, I heavily considered dropping out of school. I felt as if I didn't belong and I questioned if I could succeed at the university level. My first leadership job was in the Student Experience Center, Corvallis' version of this building. Though the job was amazing, it was the space and interactions that the building provided that kept me here at OSU. I found my new friends, who became my family, supervisors who pushed my success, and I found a building that I could actively work on my leadership skills, study, and more. Now I am a 5th year graduating with a Bachelors, two minors, and a Certificate. A central hub for students, faculty, and other members of the community to engage is what opens more opportunities for students, like myself, to succeed and progress at the college level. I got the encouragement to succeed in this building and it hurts me deeply that my colleagues and friends at Cascades do not get the same opportunity and engagement that I have had. Currently, I work as a student in the student fee funded process and we always find ways to ensure that students do not pay even more money to the university level. This building is so important to us that students have decided to tax ourselves through the Student Fee process in order to put money into creating this building. Finding belonging, community, and a safe space for students to thrive outside the academic classroom is what helps keep students

at the University level and achieve their degree. As a student, I am always happy to engage further with any member about how importance this project is for students at OSU-Cascades. Thank you very much for your work and attention to this.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

My name is Kristofer Bauer and I am a senior undergraduate studying marine biology at Oregon State University. Throughout my time at OSU, I have taken part in multiple opportunities to grow both as a student, and as a scientist, through our career center on our Corvallis campus. These experiences have been foundational

to me finding a career path, and learning how to become competitive to future employers or graduate schools. When I learned that our sister campus in Bend did not have their own career center, I found profound motivation to advocate for its construction. As a collective OSU student body, there is no reason why geographic location should dictate the opportunities each student receives. The construction of this building would not only provide immense opportunities for current students, but for future students as well.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a student constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

I am a music student, and it is a common misconception that music is simply a small facet in the daily lives of people who choose to study it. We don't just listen to music, we breathe and feel it. It enriches our lives and give us purpose. Imagine, having your profession reduced to "sitting in a room talking about laws twice a month". It's SO much more than that, and nearly every other major and college gets the recognition, as a lifestyle, and musicians deserve the same. Our building and performance space is not nearly adequate to our needs. We are just as valid and important as our STEM counterparts and I urge you to fund a space that reflects both our abilities and desire to improve and grow with the rest of our community.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They

will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Faelan Cabral  
2865 SE Deborah Pl  
Corvallis, OR 97333

The Honorable Governor Kate Brown

160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

I transferred to OSU at the start of my sophomore year but I have been apart of this community for years. I also have a baby. As a student and a mother, the building is extremely difficult to navigate with a stroller. Only one side of the second floor has the elevator. It is also on the side that a note is posted asking for students not to walk in because it is distracting. Thankfully, I have to lug the stroller around only on occasion, but for those who are handicap or have some other disability that prevents them from taking the stairs, the building is not suited for their needs and that is simply unacceptable.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

A large amount of my family graduated from Oregon State University, so when I was choosing a college, I settled pretty quickly on Oregon State. Although I did not previously know very much about the music program here, I quickly was able to see and feel the homeliness and family-feeling that is clear in this program. Although we were able to bond over jokes, making fun of how bad the music building is and how many things do not work in the building, it definitely brought down the experience as a whole. I cannot even imagine how successful of a program it would be, if the music program had a function building, as well as resources within that building. I can assume that this would help the closeness of the program even more, and add an extreme level of comfort in the students and professors, as they would not need to worry about small building-related details throughout their career.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

Our current music building is old, difficult to heat, unable to cool (no AC), not easily handicap accessible, with out-of-date technology, and is too small for the number of students in performance classes. There is no performance hall in the building, requiring those enrolled in band to move instruments across campus to be able to perform. Seeing as the music program services students who are music majors, minors, as well as students who are NOT music majors or minors, it services many students and benefits them with performances of world music as well as camaraderie, allowing students who may have never met to become friends with the potential to connect Arts even more with STEM.

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.

Dear Governor Brown:

I have been in band 12 years and can't imagine not being apart of it for the rest of my life! I new I wanted to teach band since I was in middle school, it just felt right. I am so glad that my parents forced me to join when I was in 6th grade. I also want to one day inspire my students to love band as much as I do. Without it I don't think I would have found where I belong.

A new fine arts building would help our amazing depart grow and provide our musicians with more practice and rehearsal space. This would also allow us more space to have classes. A new building is desperately needed as it can also be hard to focus during class with the lack of good sound proofing. One time we had a steam pipe break and we had to hold choir and final exams in that room while being forced to listen to a very loud high pitch. Please help us out, we would greatly appreciate it! Thank you!

During the 2020 legislative session, you and your colleagues will be making critical decisions about public university capital construction projects. As a constituent and advocate for Oregon State University (OSU) I hope you will support funding for the following OSU capital construction projects:

- Student Success Center on the OSU Cascades campus in Bend: \$12.9 million in state bonds matched by \$5 million in student-approved fees.
- Arts and Education Complex on the OSU Corvallis campus: \$35 million in state bonds matched by \$35 million in donor and university funds for a total investment of \$70 million.

Both of these projects have significant donor and student matching funds and strong community support. They will enhance the student experience and will make a difference for OSU and the entire state.

I urge you to support funding for these important projects.

Sincerely,

Stephanie Hanson

The Honorable Senator Alan Olsen  
900 Court St NE, S-425  
Salem, OR 97301

Subject: Support OSU Capital Construction Projects

Dear Senator Olsen:

I have been in band 12 years and can't imagine not being apart of it for the rest of my life! I new I wanted to teach band since I was in middle school, it just felt right. I am so glad that my parents forced me to join when I was in 6th grade. I also want to one day inspire my students to love band as much as I do. Without it I don't think I would have found where I belong.

A new fine arts building would help our amazing department grow and provide our musicians with more practice and rehearsal space. This would also allow us more space to have classes. A new building is desperately needed as it can also be hard to focus during class with the lack of good sound proofing. One time we had a steam pipe break and we had to hold choir and final exams in that room while being forced to listen to a very loud high pitch. Please help us out, we would greatly appreciate it! Thank you!

The Honorable Governor Kate Brown  
160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

As a graduate of OSU's School of Music, it is important to me that OSU receive support funding for their Arts & Education Complex on the Corvallis campus. Half of the funds needed have been raised privately. Please lend your support to this important project, so that future K-12 students in Oregon will continue to benefit and receive a quality education from those teachers like myself, who studied at OSU.

Thank you!

Hannah Moorman

The Honorable Governor Kate Brown

160 State Capitol  
Salem, OR 97301-4047

Subject: Support OSU Capital Construction Projects

Dear Governor Brown:

My name is Joshua Rist and I am an Oregon State University Alumni and a teacher at McNary High School in Keizer, Oregon. I studied choral music education at OSU and am forever indebted to how their wonderful music program provided the foundation and inspiration for the dream job that I currently enjoy as a choir teacher in the Salem-Keizer School district, a district famous for its successful music programs and community support of the arts. I feel like I get to make a difference every day with students who need beauty, community and a pathway towards self-expression in their lives. I find a great deal of purpose and satisfaction in my work and I feel grateful for OSU prepared me to be successful in this vocation. My teachers were amazing, but the facilities were not. We made the most of what we had, but it always felt strange that the quality of facilities never matched the world-class quality of the faculty, curriculum, and community held within those dilapidated walls.

The students at OSU deserve the best that we can offer them. Most of Oregon's best choir teachers were trained and nurtured at OSU and I anticipate this tradition to continue for generations to come. I think it is reasonable to match the investment our private donors have contributed and approve this state bond proposal.
