1. Here we are again. No Vote For  
the things that affect Oregonians

2. Would it matter if we did vote.  
Would Kate over turn this vote  
like she ~~did~~ has other votes just  
because she can

3. IS climate changing.

Of course it is. Has it had several  
changes through millions of years

Of course it has.

4. I struggle with decisions that already  
have recently been made for climate

change  
Such as the ban on Straws

but yet we give out drug injection

needles. We find ~~them~~ needles

on the streets down town Salem.

Next to Fred Myer there were

over 100 hundred ~~need~~ drug

needles found. Just 2 weeks ago

by a clean up crew

So ask yourself would you let your children play or even visit these areas?

5. ~~It is I do feel that this bill is nothing~~

Do we have to wait until one of our children find these before and there is something done about <sup>get</sup> ~~that?~~ <sub>hunt</sub>

Do we have to wait until a seal has one of these needles stuck in their nose?

5 Closing Yet here we are today. We all got here some how. Most of us in our vehicles, ~~the ones~~ brought brought to a dealer ship by truck. Made a

- Here we are wearing clothing

Made of ~~nylon~~ plastics + fossil  
fuels.

~~Pertho~~

~~I~~ Here we are with ~~a plan~~ a  
plan that has no affect on  
those who have office jobs  
but yet those are the people  
who rely the most on people  
who drive these vehicles that  
would pay the biggest price.

— If I had to vote on this  
I would say No. Timber Unity  
has provided another plan  
that doesnt affect just one  
catagory of Oregonians.
