Rep. Tawna Sanchez, Chair  
House Committee on Judiciary

Chair Sanchez, Vice Chairs Bynum and Sprenger and members of the Committee.

Hello. My name is Mr. James D Sherrod and I am writing this letter to thank the Family Preservation Project and urge your support of HB 4131.

The Family Preservation Project gave my grandchildren the awesome opportunity to stay in touch with their mother while she was locked up away from them. I am witness to this wonderful program for children growing closer to their mother, and for that I am very grateful. I watched my grandchildren grow strong like trees in the woods. It was very exciting to see and witness. I also see the great bond between the children and their mother. I just can't thank the program enough.

I hope that future mothers who separated from their children during this time of darkness are given the opportunity to stay close to their children. This program brings all of them closer and protect our kids.

Please support HB 4131 and the Family Preservation Project.

Thank you,

James D. Sherrod
