

No financial impact study done? No full reading of the proposed bill? What kind of a HOUSE are you running in Salem? Many, many Oregonians who LOVE this state will be ruined by your selfish ways. Listen to the people who you REPRESENT and make Oregon PROUD!! Smoke and Mirror games, really? You are supposed to be professionals? It is very sad to think you are even considering this HB 4167 as you all it NOW!! You sit well in life with your fancy houses, cars, no fee health insurance, large paychecks even after you retire, trips around the world that many, many of us HARD working folks will ever see or experience, because we are TOO busy doing the grunt work for YOU!!!! Really? How do you even feel good when you look in that mirror every morning, knowing you are even considering this for the wonderful people of OREGON???

I pray you do the right thing and think about others that work HARD in the state and have A LOT to LOSE, unlike yourselves!! If not IDAHO is coming and I will gladly be part of a state that appreciates and understands our hard work and way of life!! Where will your tax dollars come from then??

Respectfully,
Karen Koolhaas
