---

Please DO NOT pass this legislation. I cannot afford higher prices on EVERYTHING. You already raised taxes with your Corporate Activity Tax. I am already struggling to get by. How do you expect me to pay higher fuel rates, higher food prices (since we know that will go up) along.

We need responsible management of forests –

You are stealing my voice. This would be law does nothing for Oregon's clean air and you know it. This is about greed. Do your job – don't be a dictator. You were elected to represent, educate and engage. NOT to control the people.
