---

Hello, We have a logging company in Coos County, we employ 30 people. This bill will raise our fuel prices to the point we will not be able to stay in business. Our profit margins are already slim. This bill is a tax plain and simple. It must be sent to the people to vote on. You have no right to push this through. The "Activity Tax" is already going to cost us 8 grand this year. Paying for the right to work. We had no say it that either. We have had enough! Put it to a vote.
