Dear chair and representatives,

Please register my objection to proceeding forward with HB4167.

There are things which would be much more cost effective that would show real change than cap & trade. Planting a couple 1000 trees would do more in a reasonable period of time.

I am a City Councilor in Keizer. We are working with a shoestring budget. All I see cap & trade bring is a big money grab. Our citizens just cannot afford it.

I'd be happy to discuss this. My number is listed below.

Respectfully,

Daniel R Kohler
Keizer
