

I am strongly opposed to HB 4167. This Bill is truly only about the money It will bring to you and take away from the working Oregonians.

There Were many people that brought to the table suggest for you to fix the carbon emissions and helping the environment.

Like planting trees and thinning the forest of dead trees.

Try taking a few hours walking through our forest. You will see there's Plenty to clean up and plenty of space to add more trees.

Please say No to HB 4167

Thank you for your time

Jolene Koch
