

Dear Representatives,

The last 24 hours has seen a very large ground swell of people and organizations who are against the CAP & SPEND BILL from both sides of the political aisle.

**I also am against this bill** as there are so many other ways to do this at a much more cost effective way.

If you are determined to try to enact this legislation, please forward it to the electorate to vote on, as they would be the ones who would have to pay for it.

Feel free to contact me if you'd like.

Respectfully,

Daniel R. Kohler  
City Councilor, Keizer

Dan Kohler
