Subject: Vote NO on HB 4109
Date: Thursday, February 20, 2020 6:30:05 PM

Dear Chair Dembrow,

I may have commented on this bill or bills just like it in the past. But legislature is not the place to discuss this topic at all. You guys have not understanding of chemical residues, herbicide alternatives or worker safety. You are only listening to some radicals that have no vested interest in the loss of these tools. In our seed production we need this herbicide for pest control, there is no alternative in the pipeline. We have been telling you this for years. Let it die in committee. Do you Hear me, LET IT DIE IN COMMITTEE.

Sincerely,

Ronald Quiring
