Subject: Opposed to chlorpyrifos ban
Date: Thursday, February 20, 2020 7:59:26 PM

Please vote no to banning this much needed and depended on pesticide, chlorpyrifos. It is absolutely necessary, and not replaceable with any other products. Oregon farmers are under an absolute assault by our state lawmakers. Stop. Please stop. You are so blinded with your environmental agenda that you are completely blind to our economy. Our people. Our families.

Your abuse of this short session. Emergency clauses. Super majority. Is ripping Oregon apart. Your leading us down an ugly divided path. Partisan Oregon. I left the Democratic party after 18 years, because I am ashamed, of our law makers. Of the path of destruction, hate, and partisan that the Oregon Democratic legislators (nearly all of them) are on. And you all once had my vote. If you want it again, earn it. Listen to Oregon crying.

Do not ban this product. Please.

Thank you,
Tasha Webb
