

Dear Chair Holvey and Vice Chair Drazan, Vice Chair Warner, and House Committee on ar Rules,

Contacting you today asking you to please vote NO on HB4167. Heavy taxation and punishment is not the best route to reduce carbon emissions in Oregon. Many, many alternative routes have been proposed to reduce emissions that will not severely impact the Oregon economy. With current regulations, advances have already made a big difference, as emission levels are down 28% since 1990!

This bill will hugely impact Oregon by raising the cost of everything making it hard for Oregonians to frankly live in Oregon. We as Oregonians need to try and reduce costs so we could live independently and not depend on government services or hand outs. These types of practices only hurt the economy.

Please consider these issues when you cast you vote.

Thank you,

Claudia Kutsev
