

Dear Chair Holvey, Vice Chairs Drazen & Warner, and the House Committee on Rules,

Hello all, I am in contact with you today to please ask you Vote NO on HB 4167,, Heavy Taxation and punishment by payment is not the best route available to reduce Carbon Emissions in this Great state of Oregon.

Many Alternatives are available and have been proposed to reduce emission"s, that in turn won't severely affect the common citizen and the Oregon Economy. We are absolutely on the right track with the current regulations and advances that this bill thru 1990 we are down a awesome 28% on Oregons emissions. If you push the bill thru with our vote, our trust will be gone in all who participated.

Please consider the common man when you cast your vote.

Sincerely, a proud member of the ROBC Russian old believer community from Scotts Mills, Oregon.
