

To whom it may concern,

The concerns with this bill are many. You cannot tax us to repair your budget shortcomings, learn to budget like we all do. You are killing us, I am 58 yes old and trying desperately to save for retirement. If you raise taxes any more, I will be forced to lessen my contribution to survive, unbelievable. I have lived here all my life, you all are ruining this state, please cease and desist.

Think about the residents for a change...

Sincerely, Terry D Brillon
